Aarti Steel Limited

<https://www.indiamart.com/aarti-steelslimited/>

Manufacturer of round bars upto 120mm, round corner square up to 110mm flats etcarbon, alloy and special steel bill ferro chrome 60% prorata basis silico manganese 60-14%.

About Us

At Aarti Steels Limited, we represent a fully integrated steel manufacturing company with state of art plants located in Punjab and Orissa with an total installed capacity of 3 lakh tonne per annum and 90 MW of Power.

We manufacture total range of Carbon, Alloy and Special Steels conforming to National / International Specifications including customer specific requirements through a dedicated route of steel making i.e. Electric Arc Furnace - Secondary Refining - Vacuum Degassing Route – Con-cast with Electro Magnetic Stirring / Snorkle Casting practices.

Our products hold a formidable status in "Alloy Steel" Industry which is a result of consistency in quality and excellent metallurgical services rendered including after sales service. Our product basket comprises of LONG PRODUCTS with configuration - Rounds, Round Corner Squares (RCS), Wire Rods, Wires whilst we do roll sections in Flats for two wheeler industry and for laminated springs in conventional sizes.

By the dint of adequate representation in "Automotive" Sector of Indian economy, our products are consumed for manufacturing of critical components like Stub Axles, Crank Shafts, Connecting Rods, Crown Wheels, Pinions etc. (to name a few).

To be precise, the steel manufacturing exercise which is quality driven is a perfect blend of Man, Process and Technology.
