About Us

ACG Networks has been engaged in the Crossover Network Industry **since a decade** and has developed profound professional Audio Crossover Networks serving different types of **Columns and Speakers**. We are **market leaders** in developing **cutting edge technology** and delivering **advanced & efficient** products to our clients. Our clientele includes auspicious names **spread across the nation**.

Our product range is over **30 successful models** catering to the standard and custom needs of the clients. **BRIEF HISTORY** The roots of ACG Networks go back to 1960's when **Mr. Amar Chand Gupta** (ACG) started his venture in electronics industry with the name of **Crescent Capacitors**. It emerged as India's leading manufacturer of Capacitors and soon became a dominant brand. The legacy was passed on to the next generation, who further expanded the product range to a more sophisticated product line of Crossover Networks, and thus originated **ACG Networks**.

ACG Networks under the leadership of **Mr. RK Gupta, the Chief Executive and a qualified Engineer**, having an extensive **experience of over 40 years** in electronics industry, has evolved many folds and today stands strong as a major brand in the industry. His study and rigorous research & development in the subject has resulted in some of the important **new-age** inventions in the crossover network technology.
