About Us

acme Lifts was founded in _____ in India by Mr. Sahil Sayyed. Encouraged by our loyal Clients we have driven growth in the business combined with a policy of continuous improvement which has expanded our range of services and our national reach. We are a privately owned family led business employing local people at each operating base and with active apprentice and work experience schemes that have remained unaffected by global economic difficulties. To minimize the possibility of Client business interruption we also maintain a constant high value and wide ranging stock of industry standard replacement parts. Bespoke replacement and repair items can also be designed and manufactured within hours in the manufacturing plant if required. A key component of our operations is our comprehensive maintenance, repair and emergency response service provided for any make of lift, escalator. We also have a specialist team of engineers who deal with mobility access equipment. This service is delivered on a 24-7-365 basis to a wide portfolio of installations and Clients, from major public sector organizations to individual domestic customers. **Acme Lifts** prides itself on its lean approach made possible by a combined resource of strong capable management integrated with dedicated operatives who are technically competent and devoted craftsmen. Our lifting experts have worked on a truly diverse set of projects from the smallest single item relocation to giant turnkey projects....
