

Advanced Electronic Systems

<https://www.indiamart.com/advanced-electronic-systems/>

Advanced Electronic Systems is a leader in the field of design, development and manufacture of quality products based on **Microprocessor and Microcontrollers.**

About Us

Advanced Electronic Systems strives to be a leading manufacturer and supplier of highly effective electronic training systems and Industrial products for diverse applications. This focus has driven the company to set up comprehensive manufacturing units with state of the art technology. We follow international quality and testing standards.

We have optimum expertise and infrastructure for product design and development, product assembly, integration and testing. We are considered as leaders in the field of design, development and manufacture of quality systems based on Microprocessor and Micro controllers.

We have a highly motivated team of professionals working on optimizing the microprocessor and micro controller technology. The habit of providing reliable and quality products have won us tremendous appreciation and encouragement from our customers.

TRAINER KIT

Our Products

DSP Starter Kit

Microprocessor Training Kit

Microprocessor Training Kit

VLSI Trainer Kit

MICROPROCESSOR TRAINER KIT

Our Products

Embedded Evaluation Unit

Microprocessor 8085 Trainer Kit

Microcontroller Trainer Kit
ATME

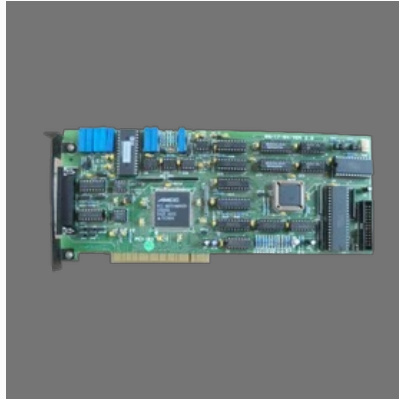

Microcontroller Trainer Kit
MSP430

PC ADD ON CARDS

Our Products

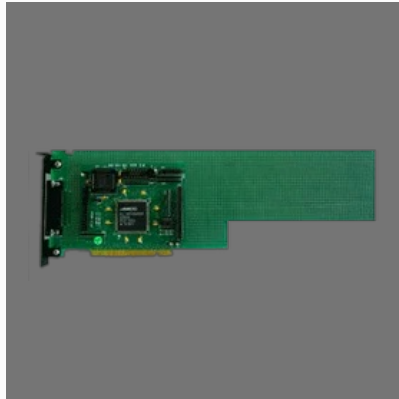

48 Lines Digital I/O Card with
Timer using 8254

PCI Bus Based PC ADD on
Cards

PCI 04 Bus Based Cards

PCI 05 Bus Based Cards

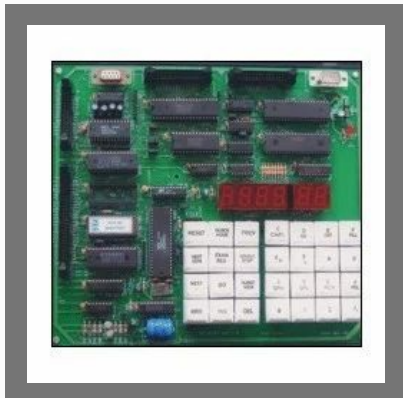

MICROCONTROLLER BOARD

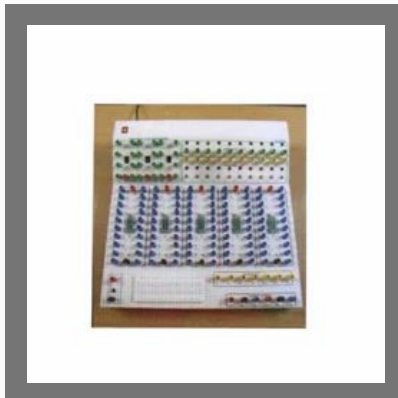

PIC Micro Controller Trainer Kit

Microcontroller Training Kit
8031 / 8051

Microcontroller Training Kit

IC Trainer Kit

PROJECT BOARDS

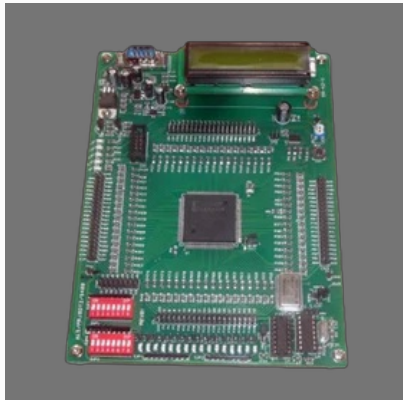

Our Products

Project Proto Boards

Project Boards

Project Boards

Project Boards

MEASURING INSTRUMENTS & EQUIPMENT

Our Products

Energy Monitoring System

Spindle Monitoring Unit

Time Code Reader

EMBEDDED EVALUATION BOARD

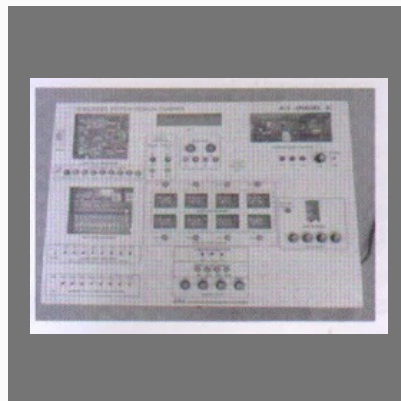

Embedded Evaluation Board

Embedded Evaluation Board

Embedded Evaluation Board

Embedded System Design
Trainer

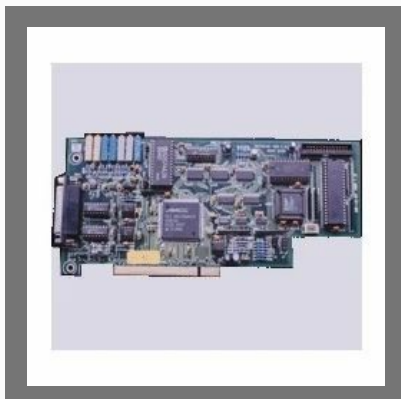

OTHER PRODUCTS:

ARM7 2148 Trainer Kit

Microcontroller Trainer Kit

PCI 02 Bus Based Cards

ARM9 Based E-Linux Lab

Factsheet

Year of Establishment	: 1982
Nature of Business	: Manufacturer
Total Number of Employees	: Upto 10 People
