About Us

Airon Technical Solutions India Private Limited was established in the year 2009. We are Service Provider of Microwave Commissioning Services, Integration Services, Deployment Services, Project Management Consultancy Services, Site Survey Services, Telecom Commissioning Services etc. Our company is a reputed service provider and a contracting company in India doing business in the field of industrial automation, electrical, instrumentation and telecom. We undertake industrial projects starting from survey to planning, execution and start up.

Airon managed to establish major footprints in the telecommunication Industry. Today, with our trained manpower and technical experts and infrastructure, we are in an effective position to provide comprehensive service solutions to turnkey projects, project management, logistic services, installation, testing and commissioning. With the involvement of more technical experts and business partners and financial facilities we have enhanced our execution capabilities from telecommunication projects to major Industrial Automation and Installation projects
