Supplier of ciprofloxacin injection, gatifloxacin infusion etc.

## About Us

Aishwarya Life sciences is among TOP-5 companies in India, producing sterile solutions using FFS technology. We are an associate company of Alkem Laboratories, one of the leaders in Indian Pharmaceutical industry.

We are a pharmaceutical and life sciences company with core competencies in Sterile solutions and injectibles range called LifusionTM. We call our product range as LifusionTM, as we cater to almost all therapeutic segments in Medicine with our range of steriles solutions and injectables, which are critical and life saving drugs. Our competencies are in supplying global markets with sterile solutions with LifusionTM range.

We understand our responsibility towards the medical fraternity and fellow global citizens. While producing the LifusionTM range of solutions, we ensure that the products are manufactured with care and quality with the best technology available in the world.
