About Us

Ajex & Turner was originated as a manufacturing unit by Mr. J.S Gupta in the year 1962. A first generation entrepreneur by his peculiar vision has dragged this venture to the ultimate heights to get a niche for itself in the global market. Mr. Gupta's success mantra over the years is to **"Grow with adopting ever changing technology"**. In the year 1962, with the help of Dee Bears Industrial Diamond Division – UK, Ajex started manufacturing Diamond lapping paste, Diamond Powder, ID & OD Wheels & other diamond tooling. Subsequently gaining acceptance of the products in the domestic and international market in the year 1987, Ajex joined hands with **Turner Stott Ltd UK** and started making diamond dies. A UK based company and in the year 2000 Ajex has taken over the 2 sick units -Johnson metal in UK dealing in manufacturing of diamond dies and Hoosier Ajax USA. In the year 2001, Mr. Ravi Bansal, CEO (Son of Mr. Gupta) got training at Precision Dies, Manchester to learn new techniques. Today Ajex is well equipped with all quality control equipments & automatic machines from British Diamond Wire Dies Co. & Ballofeat-UK. Innovation is the vital component for the development of Ajex & Turner. New ideas and inventions give technological strengths towards continuous research & development which allows ability to consistently provide a complete range of tooling, machinery and...
