We have been actively engaged in the domain of Trader and Service Provider of a premium range of pipes **fitting and fabrication**. These are known for accurate dimensions, high tensile strength and durable finishing.

About Us

Established in the year **1997**, we “**A. K. Engineering Works**” have been created a unique niche in the domain of Trader and Service Provider of a comprehensive range of **Engineering and Trunking Projects of HDPE , PP, MS, SS Pipe lines. Manufacturing Plastic Welding Machine & Accessories**. The versatile range we offer is available in varied material of construction and can be provided in customized finishes as per the specific application requirements. A state-of-the-art infrastructure at our premises has been the mainstay of our business endeavors, as it enables us in meeting the growing and bulk demands of clients within the stipulated time frame. The skilled professionals at our premises are well aware of the changing market trends and with the assistance from latest facilities, they ensure to fabricate pipes and fittings in compliance with **IS 4984 & 4985** standards. Further, they allow us in offering the pipes and fittings in varied material of construction like **PP, PVDF, FRP and MS**.

The immense success we have attained in this domain for more than two and half decades has been due to the industrious efforts of our mentor “**Mr. Ashok Aich**”. His proficient guidance, ethical & transparent business policies and man management skills enable us to become a prime choice of our clients.
