

Akshar Engineering Works

<https://www.indiamart.com/aksharengineeringworks/>

We are the Manufacturer and Supplier of a premium quality assortment of **Plastic Dana Machine, Agglomerator Machine, Grinder Machine, Plastic Washing Machine, Conveyor Machine, etc.**

About Us

Established in the year **1999**, we, "**Akshar Engineering Works**", are **Sole Proprietor firm** recognized as the affluent **manufacturer** and **supplier** of a comprehensive assortment of **Plastic Recycling machine, Agglomerator Machine, Grinder Machine** etc. The provided machines are extensively used different purposes. In adherence to predefined industry standards, our skilful and experienced professionals manufacture these machines making use of innovative technology and optimum grade components. Apart from this, these machines are made available for our clients in several technical specifications at the most competitive price.

Located at **Surat (Gujarat, India)**, we have established an advanced infrastructure that is spread across the large land area. This unit is divided into different departments like production, procurement, quality control, R&D, warehousing & packaging, etc. All these departments are supervised by our adept team of technocrats, who assure that all the business processes are carried out efficiently. Also, we have constructed a quality-control unit, wherein these machines are stringently tested on predefined industry parameters. With hard work and dedicated efforts of our workforce, we have paved our way to success in the industry. Since the inception of our firm, we have been able to keep friendly relationship with the clients by practicing transparent business policies and maintaining fair dealings....
