## About Us

Founded in 1978 by an engineering graduate of the elite IIT (Madras), India, Alope Alloys produces a wide spectrum of castings in compositions ranging from standard stainless steels to exotic superalloys. Manufacturing castings from 1 Kg. to 1300 Kg. per piece in any desired quantity, howsoever small, the company has made quality with versatility its hall mark.

The ISO 9001-2000 organization is the only foundry in India, which is solely dedicated to the manufacture of Stainless Steel, High Nickel and High Cobalt Based Alloy Castings. These castings are used for corrosion, heat and wear resistant applications and are used by machinery manufacturers and their user industries such as mechanical seals, steel & galvanization chemicals and fertilizers, paper, pharmaceuticals, water treatment & sanitation, ship building, etc.

Armed with more than 30 years of experience and a dedicated and dynamic team, Alope Alloys has become the preferred vendor for companies seeking real competitive advantage and has grown at an annual rate of 30 % for the last 5 years
