## About Us

Established in the year 1985, we, "Amabani Organics Private limited" have been Processing, Manufacturing and Exporting high quality and safe Dyes and Chemicals. We process the best-in-class dyes and chemicals using pure raw material, including monomers. The main categories of dyes and chemical we offer are Paint Industry Chemicals, Textile Dyeing Chemicals, Textile Finishing Chemicals and Textile Printing Chemicals. We believe in offering only the best and safe chemicals, thus, employ ultra modern processing techniques. Our products are used in BOPP tapes and paint, paper, textiles & various other industries. At present, we have the production capacity of 500 MT and are working hard to add another 5000MT per annum by the year 2011-12. We started our business activities in the year 2004 by offering textile binders & spread wings to paper & paint binders. After this, we established ourselves in the global market and in the year 2007 entered into the processing of adhesives for sticker, wood, lamination, BOPP tapes. We have already been manufacturing eco friendly products in the form of EOC and PVC free binder. Also, we have processed water based Plastisol which is extensively used for ready-made garments. Our motto has been to treat every client as a part of our family, thus "AMBANI PARIVAR" is our motto. Our mentor, 'Mr. Rakesh Shah' has been a guiding force and has led from the front. Thanks to his sharp business acumen and...
