About Us

We, “**Amber Crop Science Pvt. Ltd.**” are leading manufacturer and supplier that established in 2008, at Head Office Delhi, (India). We are the biggest name in the market offering best quality collection of **Insecticide Chemical, Herbicide Chemical, Fungicide Chemical and Plant Growth Regulator**. They are designed by our engineers with the use of best chemical and natural products that help in better irrigations and agriculture applications. All these pesticides are available in water proof packaging and available with many specifications. They are not only used in many farms but also in many nurseries and households for better planting and greenery. They are producing keeping in mind the current market standards in mind. They are odourless and safe to use. They are broadly appreciated for its quality, cost effective rates and best result certifications. In order to create these Pesticides, we have created a huge infrastructure unit that spreads over very large area of land. It is spacious and well equipped with modern machines and tools that help in manufacturing best of these collections in affordable rates. From our first step of selecting our experts till the delivery, all the processes are divided into many sub departments and handled under the headship of managers. All our managers are smart and work in cordial terms with each other to keep our customers happy and delighted. We have a very perfect online presence as well. We...
