Caustic Soda Flakes

About Us

Established in the year **2009**, **Amit Enterprise** is a leading organization engaged in the business of manufacturing, service providing and supplying an outstanding quality range of products. Under this compilation, we are offering a wide range of products including **Basic Chemicals, Brighteners and Additives, Non Ferrous Metals, Imitations Jewelry and Barrel Plating Services**. These offered products are widely valued for their quality. Offered products are made by the usage of best grade raw material together with latest machines and tools under the observation of skilled executives of our crew. Moreover, these are available in various specifications with us and could be improved according to the client's varying necessities.

We are readily committed in presenting outstanding quality in our offerings of products to our customers. Since we are backed by our marvelous team of highly skilled employees, quality is one arena where we stand apart from the competition. Moreover, to ensure the quality of our provided range of products, we make sure that these are processed under the strict guidelines by trusted authorities in order to attain maximum level of client gratification. The personnel under which these are getting developed are some of the best and qualified personnel available in the industry and thus are completing all the tasks within the promised frame of time.

Under the assistance of our esteemed mentor **Mr. Jitendra H. Mehta**, we have...
