Anand Technologies

<https://www.indiamart.com/anandtechnologies/>

We are engaged in manufacturing and marketing of all types of Antennas , Filters, Duplexers, Diplexers, low loss RF cable assembly. We undertake turnkey projects on RFID applications.

About Us

Incepted in the year 2006, Anand Technologies has established itself as an eminent manufacturer and supplier of wireless products and RF products. We are competent enough to undertake the designing and manufacturing of all types of antennas. We have pool of experienced professionals who strives to offer creative and technologically advanced solutions to Fortune 100 companies. They use latest technology and make our product technologically advanced and universally compatible with different equipment. We have set up our branch office in Bangalore, a technological hub. This facilitates us in having quick access to latest developments in the wireless technology. Moreover, our research associates keep themselves abreast with latest technology and offers truly innovative solutions to technical challenges met during the production process. Under the able guidance of our mentor, Mr. S. Metri, we have carved a niche in the mobile and electronics industry. Moreover, the promoters of our company have more than 20 years of techno-commercial expertise in the wireless technology. They have worked in private, public Ltd. companies and have been associated with development of products meeting the requirements of different market segments including defence and space applications.

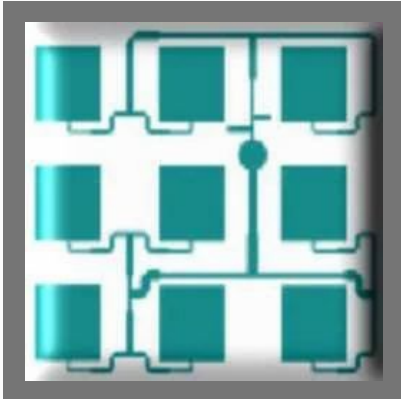

We are authorized dealers for supplying **Times Microwave systems** products exclusively to the **Indian Aero-space** and **Defence** Industry. We have a technical tie up with **SZZT & KMYSZ...**
