## About Us

Anjali Industries is founded by Mr Kaushik Dana, an IIT KGP alumnus . He has vast experience in the field of Supply chain management, IT and and quality control and overlooks all the major operations of the organisation. He is ably supported by a team of Textile experts , packaging and SCM solution expert, weavers, craftsmen and various other support staffs who create a good combination of youth , experience , knowledge, vision and entrepreneurship.

The initiative is founded with the vision of promoting the product of the Indian cottage industry on the global and national stage. After agriculture ,the rural cottage industry and handicrafts sector employs the largest no of people on its record, and is often termed as rural manufacturing segment of the Indian economy. Along with the business interest of the organisation we create jobs at the grassroots level as we promote and sell these product in various markets.

We employ advanced IT technology and marketing strategy for creating a good forward linkage of the organisation with the markets and consumers, so that we have a vibrant system in place to take our company forward. We listen to all our stakeholders right from the craftsman, weavers to suppliers, and our consumers and incorporate their inputs in our business practices , which helps our company to create a roadmap for our future visions and goals at every stages of our operation
