

Anshika Forgings Private Limited

<https://www.indiamart.com/anshikaforgings/>

We are one the leading manufacturers and exporters of high quality forged machined components. Our products are manufactured using high-grade raw materials like carbon steel, alloy steel and stainless steel.

About Us

Established in the year 1991, **Anshika Forgings Private Limited** is engaged in manufacturing and exporting of forged machine components. Our products are well known for their dimensional accuracy and corrosion resistance. We use quality raw material like carbon steel, alloy steel and stainless steel for the manufacture of our range. Also, we are a name to be reckoned with in the open-die forging industry. These products have application in automobile, chemical and engineering industries. The range offered by us includes shafts, stepped shafts, carbon steel squares, stainless steel flats, pinions, die blocks, steel forgings and finished components. We are NSIC certified organization, striving hard to provide world class and authentic products. The range offered by us is in strict compliance with the global quality standards. In addition, we also provide ultrasonically forged components, which are manufactured as per the client's specifications. Under the able guidance of our mentor **Mr. C. L. Bihany**, we have carved a niche for ourselves in the open-die forging industry. His industry expertise and experience have enabled us to reach the pinnacle of success in international as well domestic markets.
