About Us

APP Systems Services Pte Ltd head-quartered (HQ) in Singapore is a premier sales and service provider for high technology products, in the fields of plasma, thin films, vacuum technology, cryogenics, thermal and bioscience related technologies delivering solutions for critical processes in the semiconductor, solar, displays, data storage, optics, R & D institutions, pharmaceutical, biotech, environmental and the defence industries. We serve both the private and government sectors. Established in 1982 as an industrial products trading company, it has since developed into a full-fledged regional organization with sales offices and service centers strategically located in all the Southeast Asia countries and India.

APP HQ is strategically located in the Western Central part of Singapore, easily accessible to all industrial zones and is fully equipped with leading-edge test and service facilities covering a floor area of 30,000 sqf. Also housed within the APP Enterprise building is our specially designed 24/7 air-conditioned storage area and Class 1000 Cleanroom enabled with an intelligent computerized inventory control system to ensure ready availability of necessary stocks at all times.

We represent a stable of highly reputable brands who are world leaders in their field of expertise, such as Advanced Energy (USA), Brooks Automation (USA), Lakeshore Cryotronics (USA), Leybold Optics (Germany), Pfeiffer Vacuum (Germany), Riber (France) and Thermo Fisher...
