## About Us

We make you see the unseen, we mould your ideas to reality, and we help you create your own zenith.

arcides, pioneers in providing computer generated 3D modeling, 3D visualization, and Photo renderings, for diverse domains including Architecture, Landscaping, Urban Planning & other 3D artwork in India.

Spearheaded by founder architects, Nishi Chandhok and A Saxena, Architectural 3D artwork turns out to be our core competency. A team of talented, 3D modelers, multimedia developers, graphics designers, architects, and interior designers backs them up.

With more than 20 years of experience in providing 3D solutions with gilded edge, to select national & international clients, arcides has been able to get its' work noticed and acclaimed well.

We are known for providing cost effective 3D modeling, rendering, visualization, panoramas & virtual reality solutions with unparalleled quality.

Our 3D domain embodies radiosity rendered smooth renderings, providing standard and photometric lighting effects. Mesh, poly, spline and nurbs kinds of modeling. Apart from 3D we are also into providing Web/Website solutions, corporate brochures, animation, prototypes of products.
