# Arofine Polymers Private Limited

<https://www.indiamart.com/arofinepolymers/>

We are a company erected on the foundation of our core values - enhanced quality, sustainable innovation and environmental conscientiousness.

## About Us

Established in the **year 1975 in Pune, Maharashtra**, we at **Arofine Polymers Ltd.** are specialized manufacturers in the field of technically superior emulsion, Arocryl Co-Polymers & Arovyl Homopolymers. We also manufacture high quality and cost effective high tech as well as conventional Arobond water based adhesives. In addition, we have also introduced Acrotech water based products as well as Acrotech UV products through our internal R&D processes. Our wide range meets the demand of **pharma, printing and packaging industry across the globe**. Assisted by our in-house research and development team, we have produced stunning results and the company could offer superior quality and cost effective products. Hence different types of emulsions and adhesives were indigenously developed and perfected. Besides, with a strong backing of management consultancy services including software package, Management Information Systems (MIS), we are also committed to a certain kind of philosophy, objectives, culture, a certain style of management, a degree of business ethics, credibility and integrity. We are making headway under the leadership of our **Promoter Mr. Jagdish Snadkarni**, who is a role model for our team of professionals. It is owing to his guidance and support, that the organization has been able to grow its operations and markets, and garner the appreciation of our clients.
