

# Auto Suspension Parts Co.

<https://www.indiamart.com/autosuspensionparts/>

We are one of the prominent manufacturers, supplier and exporter of Automotive components, spares for earth moving machinery, range of forged and machined Products. **We offer customized service ensuring ultimate client satisfaction.**

## About Us

We take pleasure to introduce ourselves in the **year 1980** as an ISO certified manufacturing company from India located at Ludhiana. We manufacture **automotive spares, mainly suspension parts for heavy duty vehicles, trailers and parts for earth moving machinery**, we expertise in manufacturing precision components which meet **international standards, & customer specifications**. Company has in house precision machines, inspection instruments. gauges and experienced skill manpower. In depth knowledge and understanding parameters before starting the production line is our basic guideline of manufacturing.

Our willingness to develop new and innovative range has placed the company in most preferred vendors and suppliers list among our clients. Parts manufactured by the company are readily acceptable by our clients and in their respective markets. Complete customer satisfaction is the premiere goal of the company. The company is in position to manufacture components **as per customer specifications** against drawings and samples keeping in mind interchangeability of the components for national and international markets. Our motto is not just business but also to have a reputed position among our business clients. **AT AUTO SUSPENSIONS PARTS COMPANY** besides assuring the products to be as per drawing the following parameters are also assured.

- Satisfactory...
