Avesta Solar Private Limited

<https://www.indiamart.com/avesta-solar/>

Avesta Solar has been founded with the goal of making **Affordable & Sustainable Solar Power Solutions** available to areas where electricity is unavailable, unreliable or expensive.

About Us

Avesta Solar has been founded with the goal of making Affordable & Sustainable Solar Power Solutions available to areas where electricity is unavailable, unreliable or expensive

Think Solar Think Avesta

Think of any kind of roof ! We have all the right solutions at Avesta

We have completed Solar projects on various roofs & different terrains, from installing solar systems which are 20 meters from the sea to installing systems in densely forested areas, we have done it all. From solar installations on 125 year old Mangalore tile heritage roofs, to asbestos sheets, from metal sheet roofs to RCC structures, from elevated solar structures on terraces to solar parking lots, Avesta Solar has installed systems for large corporate houses, Industrial roofs, Vineyards, village electrification projects, CSR projects, Educational institutes, Hospitals, commercial complexes, shopping malls, remote forest areas, residential buildings, NGOs & many more.

Avesta solar is your ideal partner for your roof top & ground mounted solar systems.

At Avesta you will get best Quality & Service at the right price.

Avesta Advantage

At Avesta Solar you benefit from complete project planning support & Implementation

We use the best Quality equipment available which is sourced globally for all our Solar projects. We have in-house team for our installations & maintenance of all of our systems, no dependency on outsourced labourer or...
