About Us

Avika Agri Engginiering Services was established in the year 2013. We are the leading Trader and supplier of Rain Gun, Fertilizer Injector, Inline Dripper etc. This is used extensively for irrigational purposes to create artificial rain. This Rain Gun consists of a leveraged pistol with nozzle. These rain gun sprinklers are used for irrigation in a larger field minimum time and pressure as compared to conventional sprinklers.

Leveraging on our quality oriented professionals, we are offering Inline Drippers to our clients. These Inline Drippers are well developed by experts who use superb grade of material in this process. These Inline Drippers are reliable for years and are free from all types of defects. These Inline Drippers are offered in both customized and non customized options.
