We are among the reputed organizations engaged in rendering Ayurvedic Treatment for Different Types of Diseases. All our treatments are carried out as per the specifications and requirements.

About Us

Ayushree Ayurvedic Hospital and Research Center is probably the first fully ayurvedic hospital built on international standards. We provide scientific ayurvedic diagnosis and treatments for all acute and chronic diseases in this hospital. **Panchakarma**, the five major cleansing procedures described only by ayurveda are proving to be complete cure for major diseases including psoriasis, hypertension, heart disease and diabetes. We have been doing this type of treatments since about a decade. Now these panchakarma facilities are also available in this hospital with ultramodern equipment. To help the patients in achieving disease free long life, we have worked hard to provide effective good quality health care facilities from ayurveda in this center. We have tried to make available everything in ayurveda under one roof. **Ayushree ayurvedic hospital and research center** is a unique blend of ancient wisdom with modern technology nicely combined together to give maximum benefit to the needy patients.
