About Us

Bapuji Vidyaniketan, Annigeri, is right from its inception is striving hard to create modern, holistic and integrated system of education, which moulds its students into free thinkers who can easily function as global citizens. The school aims to develop the best that is latent in children and prepare them for the challenges of the changing world to face fearlessly. Skill and talents are nurtured here with the emphasis given on achieving excellence in curricular and co-curricular activities. The school inspires the students to update their knowledge about the recent trends in the various fields and acquaint them with the latest developments in the world. The school fosters in children civic sense and a sense of responsibility to the community. On this optimistic note let me present a brief report of our school. In the beginning in 2000-01 the school starts with 22 students, now 1015 students (895 day scholars and 120 boarders).
