We are India's leading manufacturer and exporter of heavy Cast Iron Castings, Ferro Alloys, Spares & Machinery and Raw Materials for Steel Mills. Our products are used by reputed Steel Plants, Equipment Manufacturers & Metal Smelting Companies.

About Us

Established in **1977**, we, **Bharat Engineering Works**, are engaged in manufacturing and exporting a gamut of **Cast Iron Castings**. These castings are used extensively in Rolling Mills, Automobile Industry, Integrated Steel Plants and Ferro Alloy Plants. Manufactured using high grade cast iron and other raw materials, these castings benefit from a long life cycle and can withstand excessive heat without being damaged. Our superior quality industrial castings are supplied to various PSUs and the defense sector. We export nearly 50 % of our products to different continents around globe. Our major export market comprises the Indian Subcontinent, East/Middle Africa, North Africa, South/West Africa, East Asia and Middle East & South East Asia. With the aid of a strong infrastructure and modern manufacturing facilities, we are able to manufacture quality cast iron castings. Being a socially responsible organization, we ensure that the manufacturing process does not pose any danger to the environment. We adhere to all legal and statutory laws and the industrial norms so that our resources are utilized wisely, efficiently and responsibly. Efforts are made so as to reduce the global carbon footprints and further protect the ecology. Our organization has been able to create a benchmark in terms of quality. With time, our organization has been able to attain a top notch in the industry due to our continued efforts and constant motivation.
