Bhatia Tools And Technology

<https://www.indiamart.com/bhatia-tools-technology/>

We are a reputed distributor of a wide assortment of stahlwille germany Industrial Tools and Equipment such as tightening and production tools. Apart from this, we also offer comprehensive tooling services to our clients.

About Us

Established in the year **1990**, we, **Bhatia Tools & Technology**, are amongst noted distributors of a qualitative gamut of **Industrial Tools and Equipment** such as tightening and production tools. Acknowledged for functionality, reliability and long functional life, our extensive range finds application in diversified sectors such as Aviation, Aerospace, Automotive, Heavy Metal, Steel and Mining. Apart from defect-free offerings, we also render numerous services such as calibration and repair of torque wrenches. We are an individually held establishment with an annual revenue of 40 Crores, and are based Bengaluru, Karnataka. Our complete array is procured from leading market vendors and organizations, who follow strict quality management program to develop and supply the products. We are supported by competent team, which consistently strives for attaining organizational objectives. Further, we have a widespread distribution network that helps us in supplying consignments to clients within agreed deadlines. We are progressing under the proficient guidance of our mentor, '**Mr. Bhatia**'. Owing to his rich industry experience and in-depth knowledge, we have earned commendable position in the market.
