About Us

The 'BIMBRAH GROUP', in establishment since 1980 and now has a turnover of over 18 Cr, is a leading manufacturer of Professional Audio & DJ Sound Equipment in India, having its registered office in New Delhi. The Group manufactures a range of products such as Professional Audio Speaker-Columns, Stage Monitors, Bass Enclosures, Low/Mid/High Frequency Drivers, Amplifiers, Line Distributors, Tape Recorders, etc for Public Address System and Studio Mixers, D.J. Mixers, Dance Floors, Echo, Echo Chorus, Stroboscope, Sequencer etc for providing sound solutions at discotheques, parties & banquet halls and outdoor marriage arrangements. Originated as a proprietorship firm, the objective was to manufacture simple electronic products for music, such as Speaker-Columns, Frequency Drivers, Echo systems, Tape Recorders etc. These items, once launched in the market, received encouraging feedback and response. Demand of our products kept growing over the years. Today, the Company possesses excellent production and quality control facilities in its own spacious buildings. The company has the latest Computer Software Technology to test its professional audio speakers for better sound qualities and performance. The Research & Development (R&D) team is forever working on improving the quality of its existing products as well as introducing a new product line with variety. Further, surveys are also conducted for discovering new potential markets/ selling arenas and distribution...
