

Bio Innovations

<https://www.indiamart.com/bio-innovations/>

Offering rapid testing services, molecular testing services etc. Also trader of cell culture plastic ware, D. N. A. Extraction kit etc.

About Us

Bioinnovations is a Biotechnology solution provider company founded in 2010 to market innovative products and services for life science research. Offering proven choices in Life sciences, Clinical Research and Water & food safety testing is our business. We help our clients choose the test format and choices in technology. Bioinnovations help customers to determine which tests best suit their needs. Bioinnovations began marketing sequencing and Oligo synthesis, Microarray along, with rapid tests for the microbiology community.

The products and services provided have been developed by international partners .They are made available through Bioinnovations to researchers in Academia, pharmaceuticals, Clinical & biotechnology industry with an application- and customer-oriented approach.

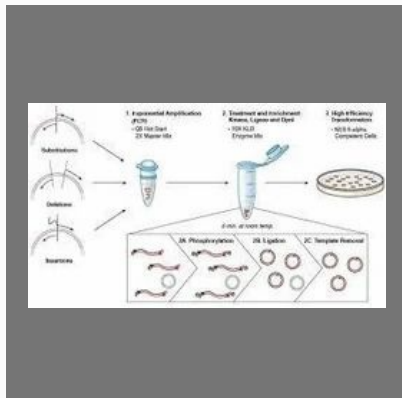

Bioinnovations is continuously striving to complement its product portfolio with novel products and technologies. This approach, in fact, enabled us to become a leader in the segment.

MUTAGENESIS & CLONING

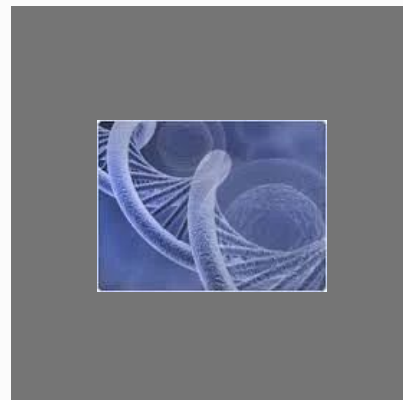

Site-Directed Mutagenesis
Sequencing Analysis Services

Random Mutagenesis
Sequencing Analysis Services

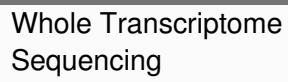

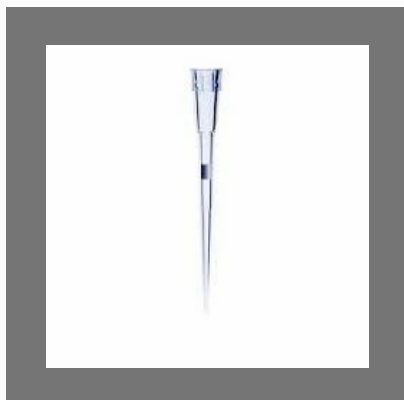

Competent Cells-Difficult
Cloning

Competent Cells-Routine
Cloning

Products & Services

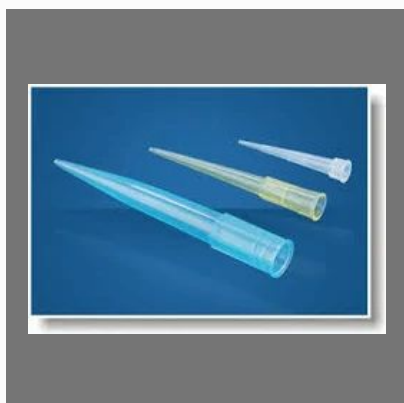

Racked Graduated Tips

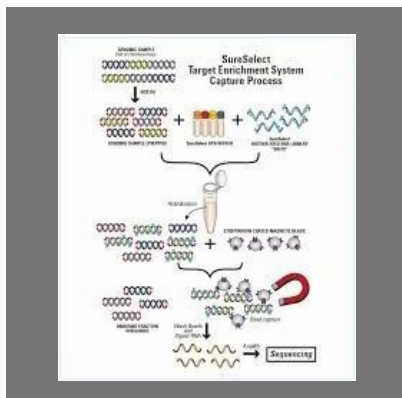

Racked Graduated Sterile Tips

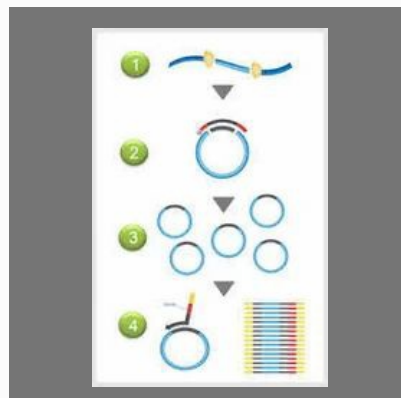

Micro Tips

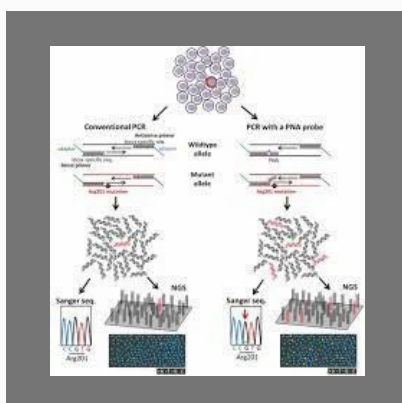

Centrifuge Tube

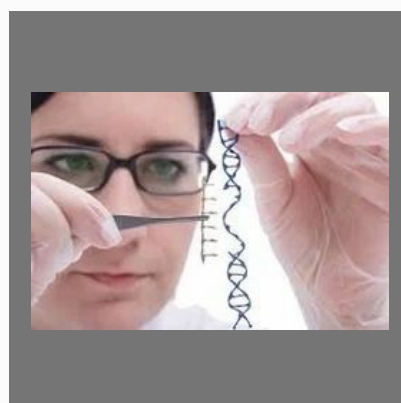

SureSelect DNA & RNA

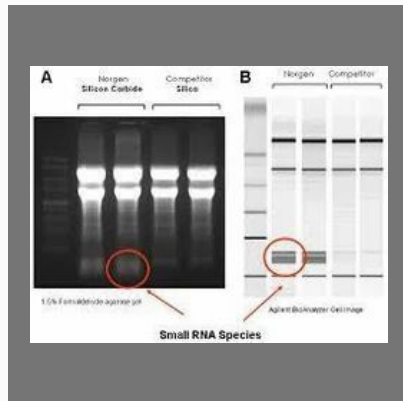

HaloPlex DNA Sequencing Analysis Services

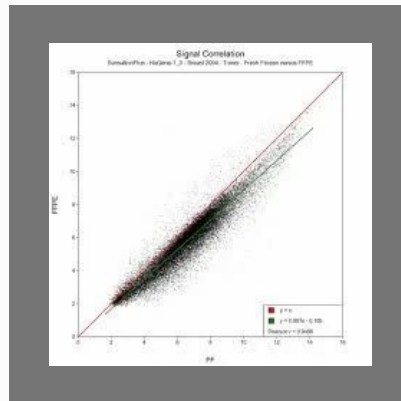

Custom NGS Sequencing Analysis Services

Sure Select Methyl-Sequencing Analysis Services

RNA Preparation & Extraction

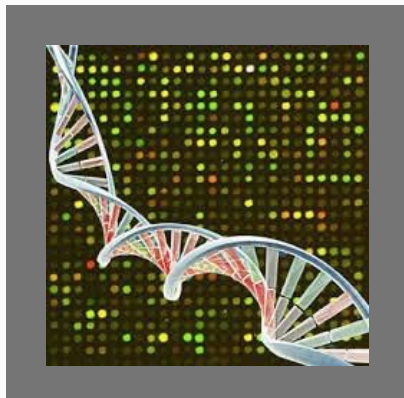

Sample Amplification & Labeling

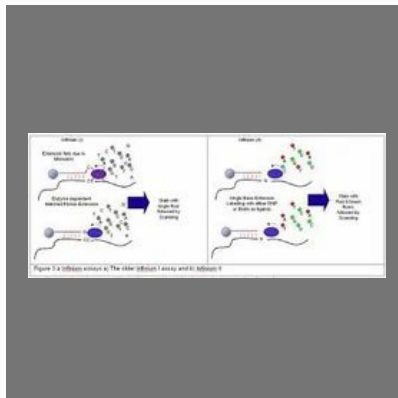

Micro Arrays & Processing Components

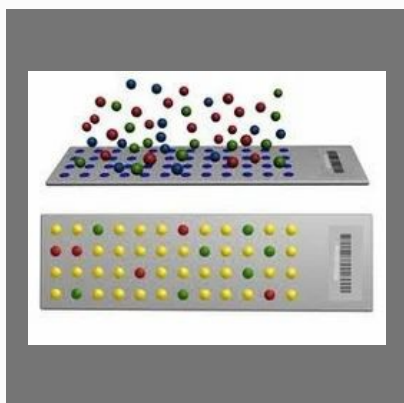

Micro Array Scanning

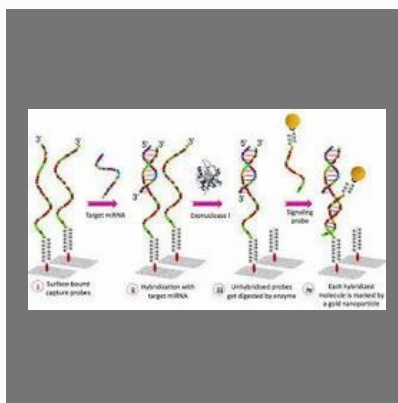

Gene Expression Profiling
Microarray Service

Whole Genome SNP Analysis
and Custom SNP Arrays

Array CGH Microarray Service

Mirna Arrays Proteomic
Service

FLOW CYTOMETRY CELL IMAGING & COUNTING

Products & Services

Automated Cell Counter 2.0

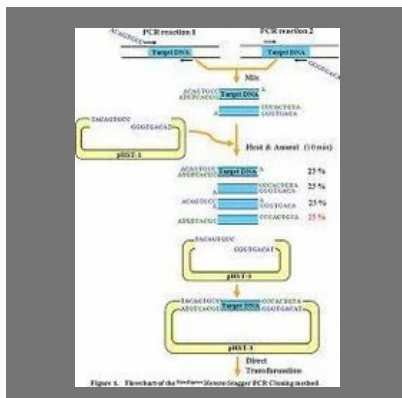

Bioanalyzer - DNA Analyzer

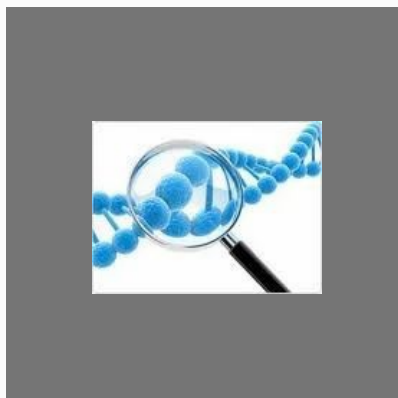

Flow Cytometers

OTHER PRODUCTS:

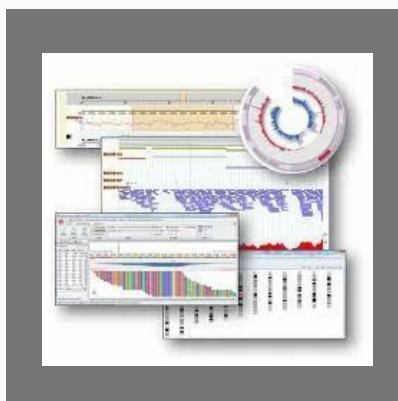

PCR Cloning Kits Clinical Research Service

Targeted or Amplicon Sequencing

PCR Tube

NGS Design Tools
