About Us

Incepted in the year **1984**, we, "**B. R. Engineering Works**", are the leading organization in industry engaged in the business of high quality engineering products. With its business offices situated in **Coimbatore, Tamil Nadu (India)**, our company is operating its entire business activities as a **Sole Proprietorship Firm** based venture. Being a reliable **manufacturer, supplier** and **trader** in industry, we offer products such as **Customized Gear, Textile Machinery Spare Part, Screw Rod and many more**. We are also known to provide **Repairing Service** to our customers. We always practice fundamental business strategy and ethical market approaches which make us impeccable in industry. We use finest quality raw material for developing our products which enhances their functional life. Due to our consistent approach to improve the quality, we use latest technology while manufacturing.

Mr. Y Rajan is the **Proprietor** of the firm and under his management and positive guidance our organization has seen new heights and is on the rising graph. He is in regular touch with the customers and team; he motivates them in the best such a manner that increases their confidence in the company's outline. He is very enthusiastic and positive towards his approach and always successful in clearing all the worries. With a team of specialized members we as an organization have been able to deliver our...
