About Us

In the wake of ever increasing demand for creative and qualitative **Embroidery Products**, we '**Bytespan Embroideries**' were established in the year **1992**. Our company is regarded as highly specialized in manufacturing, exporting and supplying a wide gamut of Embroidery Products. Also, we are renowned to be one of the reliable service provider of a wide range of **embroidery digitizing services, custom logos digitizing, graphics and, artwork for all kind of fabrics, textures, garment and other items**. We take into account the ever changing tastes and preferences of our clients and offers most suitable range of products. The wide range of products fabricated by us is extensively appreciated for their attractive looks and excellent craftsmanship. With the active support of our team of professionals like master craftsmen and embroidery experts, we are able to understand the needs of different industries and offer suitable range of products. Thus, these products are widely used in the textile and fashion industry. Embroidery is an intricate and creative art done on the canvas of fabric. The beauty of the art is that it blends with the background of the fabric thus, giving an extraordinary look to the ordinary fabric. The immense expertise in this field makes us an expert in the domain. We are able to gain a good position in the market segments under the able management and leadership of **Mr. Sanjay Mozar (CEO)**. With his...
