About Us

CAN Consultants was established in **1999**. The practice operates out of its established offices in Canada and Australia. We do obtain a large portion of our referrals from offshore sources and we take pride in this and our confidence to of being the best in the business. Our Director understands and is particularly empathetic to the rigours, uncertainty, frustrations and difficulties associated with migration. Our company's aim is to simplify the migration process for our clients. Apart from assisting individual migrants, CAN Consultants is retained as advisor to a number of large clients. We are also regularly interviewed by the media for our opinion on issues of governmental immigration policy, when changes take place. The fact that we already have **10,000 satisfied clients** speaks wonders for our abilities and quality of work. You as the client can always be sure that you are receiving the latest migration information and advice from us. No matter what the issues is, be it business or general resettlement, etc, we have the depth of knowledge and research capabilities to provide you our expert opinion.
