## About Us

On demand Integrated HR platform: Centrix is a leading provider of an integrated HR platform delivered as Software-as-a-Service (SaaS). We believe in efficiency enhancement, transparency and empowering employees for their long-term and fun filled engagement with the organization.

We believe in meritocracy where career growth and benefits are linked to performance. We capture it objectively and eliminate subjectivity to a large extent. Our solution consists of integrated platforms for life-cycle management, performance management, succession planning, learning and communications.

The platform allows the third party service providers to interact with the HR manager seamlessly thus reducing lead-time and provides dashboard of information.

The solutions are meant to engage employees at all levels and develop their careers, improve execution efficiency and enhance transparency that helps in expectation management.
