About Us

Charushilpa Woodcrafts is a pioneer in traditional and modern woodworking methods. Over the past 18 years we have executed a vast variety of work which spans across Residential interiors, Commercial interiors and Religious buildings.

We currently collaborate with our clients in three modes

Design & Build : In this mode of engagement we would analyse the requirements, provide design options and estimates based on the client's inputs. Once approved we would then go ahead and execute the work as per the specifications to the best of our abilities.

Build : In this mode of engagement we would provide estimates based on designs / drawings / specifications issued by a designer/architect. Once an agreement is reached we would then go ahead and execute the work to the best of our abilities.

Job Work : We also manufacture & supply wood/panel based products to retailers based on specifications provided. eg: furniture, light fixtures, custom carvings.
