**Manufacturing, Exporting And Supplying Sodium Silicate And Precipitated Silica Plant From Rice Husk Ash on Turn-Key Basis, All Types Of Synthetic Resin Plant, Pressure Vessels, Shell & Tube Heat Exchangers And Many More.**

## About Us

**Chemplant & Engineering Services** came into formation in the year **1997** as a **partnership firm**. Our manufacturing plant and are business activities are efficiently carried from **Kolkata, West Bengal, India**. We have enormous experience of **manufacturing, exporting and supplying of Pressure Vessels, Distillation Columns, Healthcare Units and many more**. We are catering to the needs of wide range of industries efficiently; we precisely understand the needs of clients and make suitable arrangements at our end to give clients world class products. The entire range manufactured by us is completely quality tested, to ensure it provides trouble free performance to all the clients. We have been successful in garnering requisite infrastructure which is a great impetus in producing world class machines. Our entire offered range is reliable, durable, easy to install, simple to operate, requires low maintenance and many more. We have been able to gain a substantial position in the market over last couple of years owing to the guidance we receive from **Mr. Suranjan Basak**. His domain knowledge is excellent and so are his man management skills. **Mr. Basak** takes all the important issues related to company with appropriate consultation from the concerned people. He keeps a strict tab on industrial activities for ensuring smooth functioning. We have been successful in construction of state-of-the-art infrastructural building...
