We are a leading manufacturer of a wide range of AAC Block, Aerocon Block, and Furnace Slag. This vast range of products is known for its environmental friendliness, varied usage, and renewal ability.

AAC Blocks

## About Us

We, **Citadel Eco-build Pvt. Ltd.**, started in the years **2001**, are one of the foremost manufacturers an extensive array of AAC Block, Aerocon Block, and Furnace Slag. To manufacturing these products, our professionals use top quality components and modern machines. Our products are appreciated for their features like easy to use, sturdy design, damage resistance, long service life, and superb performance.

Over the years, we have undertaken extensive research to ensure that our product range and extracting process are in tandem with industry-specific guidelines. We have achieved this feat because of the support of our astute and talented professionals. These professionals are well-versed with industry trends and have vast experience to support client's demands and requirements.

Under the able leadership of our mentor, **Ms. Nutan**, we have achieved an unparalleled status in the industry. His sharp business acumen, able guidance, and brilliant organizational skills have helped us grow in the forward direction.
