About Us

We are known as one of the prominent manufacturers and suppliers of an extensive assortment of packaging machinery like vacuum sealing machines, ring wrapping machines, automatic packing machines, semi automatic packing machines, shrink wrapping machines, vacuum packing machines, horizontal wrapping machines, blister forming machines, skin packing machines etc. Incepted in the industry in the year 1992, we are a quality driven organization with a concern highly reliable packaging machinery and equipment to our clients. We are looking for inquiries from South India region including Andhra Pradesh, Karnataka, Kerala and Tamil Nadu and cities like Bangalore, Chennai and Hyderabad.

Owing to the sound market understanding and profound business acumen of our mentor Mr. Vikram Vikaj, we are able to successfully serve the variegated packaging requirements that come from different industries. His vast experience in the industry has helped us in embarking on high professional technology standards which makes our range in compliance with the global quality norms. We have gained reputation and recognition in the market owing to the scaling standards of excellence that is imbibed in our operations. Since effectiveness and high performance is reflected through our range of packaging machines, we make sure to maintain the same and manufacture our packaging machines with world class quality that is exclusively deployed in the packaging industry.
