Competent Electricals India

<https://www.indiamart.com/competentelectricals/>

Competent Electricals (India) is a remarkable name of the industry thoroughly engrossed in trading and supplying a wide variety of products to our customers.

About Us

Competent Electricals India, the management arm of FLORA group of manufacturing firms and was founded in **1989** with the aim to provide our customers with a holistic range of ISI certified products, for all their electrical needs. We deal in a wide range of products marketed under the brand name of FLORA (Established in 1960). With a plethora of brands available in the market, FLORA stands out because it consistently provides high quality products at affordable prices. Having served the Indian electrical market for roughly six decades, we have expert understanding in the specific requirements of our customers and can thus ensure superior performance and greater adaptability with no compromises on the product quality. So as to undertake the operations of our crew in an efficient and hassle free manner, we have hired with us a trained and assiduous crew of executives. All our personnel are chosen as per their sphere understanding and skills. Additionally, each and every executive hired by us work in close tandem with each other and guarantee timely completion of their tasks. Underneath the supervision of our guide **Mr. Kartikeyan Chhabra**, we have been able to serve the variegated desires of our clients spread all across the country. His immense understanding in this sector has assisted us in completing all our orders on time.
