Wood House Works

<https://www.indiamart.com/cottage-makers/>

We are leading Supplier and Manufacturer of Pre-Fab Wooden Cottages & Wooden Row Houses Established in the Year 2000 By Mr. Amrik Singh

About Us

We are leading Supplier and Manufacturer of Wooden Cottage, Wooden House etc. At the beginning stages we made houses from Ply-wood which were laminated on both sides but with time we switched over to newer & better alternatives. Now Pre-Fabricated Houses are made from Pine wood planks, Cement-Fiber sheets, with wooden and M/S grid work for extra strength and longevity. These pre-fabricated houses are very easy to install, quick to fix and come in different sizes (these houses can also be tailor made). Their practicality and workability make construction simple and efficient for use in residential or commercial applications, including multi-storey projects. The innovative part of pre-fabricated houses is that they could be built not only as Homes but for Farms, Gardens, Terraces, Beachside, Riverfront and various Eco-Friendly resort concepts.

We appreciate your interest in Wood House Works. And we are Proud to introduce ourselves as the leading "preparers" of Pre-Fabricated wooden houses in INDIA. One of the greatest joys we derive is the relationship we establish with our clients through the creation of the work of art that we call a custom pre-fabricated home. It is because of our wonderful clients that our work is so gratifying & appreciated.
