

Daniel Batteries

<https://www.indiamart.com/daniel-batteries/>

We are an ISO 9001:2008 certified firm engaged in trading and exporting a discursive range of Rechargeable Torches & Accumulators. Our range has the topmost and leading brands, which are procured from reckoned manufacturers and vendors.

About Us

Established in the year **1990**, we, "**Daniel Batteries**", are engaged in trading and exporting a wide range of **Rechargeable Torches & Accumulators**. Owing to our commitment in consistently delivering quality products, we have been obtained the prestigious **ISO 9001:2008** certification. We procure our products from the leading manufacturers and vendors. Acknowledged for delivering excellent performance in most rigorous environments, our products are used in mines, forest ranges, cinema halls, factories and by security guards.

Across both domestic and commercial sectors, our products have captured a large market share. We have robust facilities and have developed capacious warehouse for safe and secure storage of the products. We follow ethical business policies and offer utmost transparency in all the deals. The consignments are timely delivered in every part of the country and the entire **Indian Subcontinent**, through our wide marketing network.

Under the able guidance of our mentor, '**Mr. Deepak Chhorwani**', our organization has achieved phenomenal success and consistent growth. He has motivated us to perform up to our true potential.
