

Davico Composites

<https://www.indiamart.com/davico-composites/>

We are pleased to introduce ourselves as the manufacturers of FRP products having its manufacturing facilities at Madkaim Goa, having a competent setup with a balanced team of skilled technicians and technically qualified management.

About Us

Over the last thirty years composite materials, plastics and ceramics have been the dominant emerging materials. Modern composite materials constitute a significant proportion of the engineered materials market ranging from everyday products to sophisticated niche applications. Composites are able to meet diverse design requirements with significant weight savings as well as high strength to weight ratio as compared to conventional materials. Davico composites has been incorporated by a team of engineers with considerable experience and knowledge in composites technology. The creation of davico composites was borne out our ambition to provide facilities for the manufacture of high quality frp products. We are committed to offer services for covering all the varied and unique needs of the users, and with this focus in mind the company is already in the developing plans for bringing in new technologies.
