

Deepak Minerals & Grinders Pvt. Ltd.

<https://www.indiamart.com/deepakmineral/>

We are one of the leading and established companies engaged in the sphere of manufacturing, supplying and exporting a range of Industry Minerals. These Minerals are precisely composed and carry standard chemical properties.

About Us

Our company is one of the experienced players among the other competitors engaged in the business of manufacturing, supplying and exporting Industry Minerals. Our minerals comprising of calcium carbonate, china clay, dolomite, quartz and others are acclaimed for its superb chemical compositions and accuracy.

Since our inception we have been making remarkable growth and establishing secure relationship with the clients on the basis of standard quality measures and service level. We believe in constant up-gradation of technology and machinery. Optimum quality has been the norm in our range owing to continuous and industrious efforts of our professionals in production process which is further guided and supervised by our mentor and owner Mr. G B Aggrawal. His industrial experience helps us in regular and continuous quality checking of raw material as well as the final range for standard parameters. Our quality auditors with proper assistance from our workforce make sure our esteemed clients get international range minerals.
