We are engaged in manufacturing and supplying an array of CI & Graded Castings. These products are used in various industries such as automobile, paper & pulp and textile machinery.

About Us

Established in the year **1994**, We “**Deep Industries**”, are engaged in manufacturing and supplying an array of **CI & Graded Castings**. Our range of **CI & Graded Castings** is known for its features such as precision-designing, low power consumption, high tensile strength, corrosion resistance and are dynamically balanced for fluid movement. All our products are manufactured by our experts, using premium quality raw material, which is procured from the reliable vendors of the market. The **CI & Graded Castings** offered by our organization, are widely demanded in various industries like automobile, mining, chemical industries and machine tool manufacturing companies. We are mainly looking for queries only from **Gujarat, Maharashtra** and **Rajasthan**. We have established a sophisticated infrastructure that is stretched across a wide area of land. This is internally segregated into various units that are equipped with several advanced machines such as induction furnace, shot blasting machines, sand muller and core mixer, overhead crane, machine molding, core shooter, compressor, spectrometer, rectifiers and generators. This enables us to manufacture our offered range in accordance with the quality standards set by the industry. These units and the machines installed in them are operated by our expert professionals, who are experienced in their requisite domains. The entire manufactured range is further tested on...
