About Us

DeITech Controls proudly presents a range of world-class flow control valves and valve automation products produced with one simple goal in mind – “Customer Benefit”. We believe that all our actions, from concept to the performance of the product, must deliver uncompromising value to the customer.

Our passion to deliver a product with the highest “PQ” or Performance Quotient is the driver of all that we do in DeITech. Our Plant in Pune, India and our Head Office in Geismar, LA, U.S.A. has all the resources required to design, develop and supply world-class products to any demanding application in a wide spectrum of industries such as Oil & Gas, Chemical Process, Food Process, Pharmaceuticals and Water. Unique features and benefits are built into all our products which guarantee highly dependable performance consistently.
