We are an illustrious manufacturer and exporter of a wide array of Spot Welding Machine. The machines offered by us are appreciated for their optimum performance, energy efficiency and easy operation.

About Us

Established in the year 2002, we, “**Dhanlaxmi Industries**”, are engaged in manufacturing and exporting a precision-engineered array of **Single Phase Arc Welding Machine, Stud Type Welding Machine, Regulator Type Welding Machine**. The machines offered by us are fabricated by the professionals in compliance with the international quality standards. These machines find their extensive applications in automobile, construction and engineering industries. Our offered machines are widely applauded in the market for their features such as low maintenance cost, easy operations and longer service life. Moreover, before the end delivery, all our offered products are stringently checked by the quality analyzers of our firm to ensure that these are in compliance with set industry standards. Due to the above mentioned factors, we have become the member of **Trade Association of Ahmadabad**. A state-of-the-art infrastructure facility is established by us, which enables us in having proper execution of all the business activities in a streamlined manner under one roof. The infrastructure facility is installed with advanced machines and technologies that enabled us in meeting the bulk requirements of esteemed patrons. All the machines are regularly upgraded and oiled by a team of R & D professionals so as to retain an excellent production rate. Moreover, all our developed machines and procured raw material are safely stored as per their...
