

Dhara Engineering Works

<https://www.indiamart.com/dhara-engineering/>

We are one of the leading **Manufacturer, Supplier** and **Exporter** of **Textile Machinery and Parts**. Our range of products is widely appreciated for its robust construction, high performance and longer service life.

About Us

Established in the year **1990**, “**Dhara Engineering Works**”, is one of the esteemed organizations engaged in the manufacturing, supplying and exporting an extensive series of **Textile Machinery and Parts**. Our range of products comprises **Drying Cylinder, Cooling Cylinder, Industrial Cooking Vessels, & Industrial Storage Vessel**, etc. Our entire array of products is produced using quality basic material and components. Designed to perfection, these products are widely admired and demanded for their features like robust construction, great performance and dimensional accuracy. This highly efficient product range finds its comprehensive application in textile industry.

To ensure utmost client satisfaction has always been the center of all our actions. We understand the significance of quality and timely execution of the products. Hence, we have appointed a team of hard-working and self-motivated professionals, which understands the value of quality. They put the best display of their abilities to bring forth a qualitative array of products. A group of talented quality controllers verifies the degree of quality as per the international quality standards. Our resourceful and sound infrastructure supports us in accomplishing our business objectives.

We are a **Ahmedabad (Gujarat)**, based company which is ably led by some excellent minds in the industry. Our organization has always followed ethical business practices...
