About Us

Complete solutions for the security of offices and homes with advanced cctv cameras and other security devices, which helps in recording. Digital communications & computers is an indian manufacturer of various range of 'access and identification' products. Our video door phone provides high quality audio video communication with visitors and providing more security to your home. We also provide all types of video conferencing hardware (polycom / aethra) with display units like plasma. We can provide this solution for point. The enforcement of parking restrictions and moving traffic violations is seen as an important tool to help maintain the positive steps already made.
