Divija Construction

<https://www.indiamart.com/divijainfrastructure/>

We are the leading manufacturer and supplier of Sewage Treatment Plant, Waste Water Treatment Plant and Rainwater Harvesting System. We are providing services for Rainwater Harvesting System Construction and Sewer Line Construction.

About Us

We, **Divija Infrastructure Private Limited**, have set an enviable benchmark for other companies in the face of the industry. We have become one of the most renowned brand preferences in water treatment and harvesting solutions. The company has been established in **2006** and has since involved itself as the foremost **manufacturer and supplier of Sewage Treatment Plant, Waste Water Treatment Plant and Rainwater Harvesting System**. We also **provide services for Rainwater Harvesting System Construction and Sewer Line Construction**. We deliver the best standard qualities of performance and reliability. Our products provide the best possible solutions for water filtration that cover all the needs and requirements of our clients. We have developed our systems to serve in solving the modern problems related to water scarcity and pollution prevalent in the modern society today. Our products are vouched for by a vast client network, who has trusted us with bulk contracts throughout the years. To ensure customer satisfaction, we have set strict and stringent parameters to allow only the best products into the market that our company has to offer. We have rendered design and structures that are famed for both their function without failure. Our experts heavily scrutinize the input of raw ingredients and the final inspection of finished products. We rely on a vastly spreading infrastructural facility to undertake the production processes...
