About Us

ECI systems - Innovated Thinking

We are "A Control Automation Solution Provider", specialized in providing total engineering solution for vertical industries. Since its inception in 2005, ECI SYSTEMS has constantly upgraded its portfolio with diverse offerings, challenging projects and impressive clients. We engineer and manufacture state of art industrial control & automation solution, having Ramnagar, Coimbatore as our headquarter.

Our primary job involves automating the existing conventional machines into fully automatic machines enhancing the production of the equipments as well as automation for the new machines manufactured by OEM's, meeting the current market standards and requirements. Thus we, enable the end - user to attain his productivity and profitability.

We are also an authorized system integrators of parker - SSD drives (USA), GE - fanuc (USA), eurotherm (UK). We are indulged in system design , application engineering, application software engineering, documentation, start - up (commissioning) and after - sales service of AC & DC drives, AC servo motors & drives, PLC, HMI AND scada, recorders, data management products, solid state relays, power controllers, temperature controllers, process controllers, process solutions, I/O signal conditioning, thermosensors, ancillary.

Our reputation is built on technical expertise, professional approach, commercial integrity and facilities. With a dedicated team of dynamic, qualified...
