About Us

Since 1998 the Italian firm Ecoprogetti srl has been researching, designing and constructing turnkey photovoltaic production machines and lines. All the services are conducted internally with the benefit of having a single contact from the order through to the after-sales service. Based on our extensive experience, we are able to offer a wide range of services that are not just limited to making photovoltaic modules or production lines, but include a series of activities to guarantee all-round professional and punctual support and assistance.

The extensive know-how that Ecoprogetti has built up in pv production line and in making of photovoltaic modules is the result of thousands of projects in more than 25 years of business. A commitment that has led to the creation of the partner firm Ambra Sol, which produces and supplies top quality made to measure photovoltaic modules. Our goal is to work alongside the customer to achieve excellent results, not only in Italy but anywhere around the world. Browse through the different sections in our site and see for yourself all the different Ecoprogetti srl solutions!
