About Us

Emmessar Technologies Limited (ETL) was started as an Engineering Consultancy Firm as a proprietary concern under the name “MSR & Company” in the year 1982. Subsequently, it was incorporated as a Private Limited Company in the year 1984. ETL bought over an Iron Foundry in Thane and promoted a Steel forging unit in Hyderabad, Andhra Pradesh in the same year 1984. In addition to Engineering Consultancy and running these 2 companies, it created an R&D department in the field of Biotechnology & Human Healthcare.

Continuous R&D resulted in developing the process & manufacturing know-how for many Specialty Chemicals for Agriculture, Micro Nutrients for Plants, Animals & Humans, Non Sulfur Vulcanizing Agents for natural & synthetic rubber, feed stock for hi-tech adhesives, Construction Chemicals etc.

The crowning development in the human healthcare was “VedaCeuticals”. VedaCeuticals is a new science & technology integrating the Ancient Indian wisdom from Veda (Ayurveda) and modern science related to Nutraceuticals. The uniqueness of this technology involves converting age old herbal and mineral nutrients into potential and powerful medicines, free from any side-effects. This development was the essential need of meeting the unmet medical needs in the field of healthcare worldwide.

Today, VedaCeuticals stands as a unique Science & Technology for meeting the healthcare needs of the...
